For Immediate Release

2960AX Quartz Frequency Standard Features 1pps Tracking

NOVATECH INSTRUMENTS, INC. introduces the Model 2960AX Disciplined Quartz Frequency Standard. This bench-top instrument provides a cost-effective means to generate precise frequency reference signals for laboratory equipment, communication systems or other test and measurement equipment. Containing an ovenized quartz crystal time-base, the 2960AX has a stability of better than $\pm 5 \times 10^{-11}$ per day when disciplined to a 1pps source. The 2960AX uses an auto-adaptive disciplining algorithm, requiring no user intervention or tuning, that tracks the 1pps from a GPS smart antenna. The 2960AX features two 10MHz and one 5MHz outputs on the front panel, with two BNCs on the rear panel for 1pps.

The 2960AX list price is \$1,795. The GPS1 Smart GPS Antenna is available as an accessory for \$1,295. Combined with the GPS1, the 2960AX provides a complete turn-key solution for an engineering or calibration laboratory. Delivery is stock to 4 weeks.
